

UNSW
SYDNEY

Is data on the Data Archive encrypted?

There is no built in function for encryption within the UNSW Data Archive. However, this does not preclude researchers from encrypting the data prior to uploading it to the store. If you would like to encrypt your data, ensure that you are aware of the risks prior to doing so.

Help and further information:

- To learn more about the Data Archive:
 - go to the [Start here](#) page
 - see all [Help Topics](#)
 - see all [Frequently Asked Questions](#) (FAQs)
 - browse through the carousel on the [homepage](#) to view all available videos
- To access the Data Archive Web application, use this [link](#), or, go to the [Home](#) page for other access options
- To create, or update, a Research Data Management Plan go to the [ResData](#) service
- **Note:** the Data Archive service is also available over SFTP, see the [SFTP client guide](#) for more information
