

How do I upload / download empty folders?

It is possible to include empty folders in the data that you upload to and/or download from the Data Archive application.

- [How to include empty folders in the upload process](#)
- [How to include empty folders in the download process](#)

Upload:

To ensure that empty folders are included in the data you are uploading, check the **Import Empty Folders** checkbox *before* you click on the **Import Files** button.

Import Files

Steps: 1. Packaging + 2. Name etc. + 3. Location + 4. Metadata

Packaging: Parent Asset:

Compression Level: Create Parent Asset:

Quota Impact:

Import Empty Folders:

Name	Total	Size
testing	2	86.03 KB

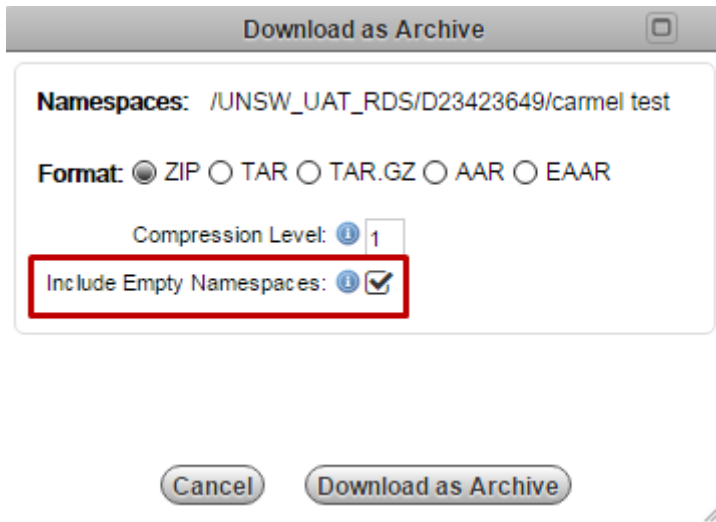

Cancel Previous Next Import Files

For more information on uploading see the [Web application guide](#).

Download:

To ensure that empty folders are include in the data you are downloading:

- check the **Include Empty Namespaces** checkbox when using the [Web application](#). For more information on downloading see the [Web application guide](#).

•

Help and further information:

- To learn more about the Data Archive:
 - go to the [Start here](#) page
 - see all [Help Topics](#)
 - see all [Frequently Asked Questions \(FAQs\)](#)
