

## What is ResToolkit?

ResToolkit allows you to set up and document a Research Data Management Plan (RDMP) for your project – for grant-funded projects this will be linked to the record in InfoEd. A RDMP is required to obtain a storage allocation in the Data Archive.

For information on submitting a Research Data Management Plan (RDMP) in ResToolkit:

What is a research data management plan and why do you need one?

### Help and further information:

- To learn more about the Data Archive:
  - go to the Start here page
  - see all Help Topics
  - see all Frequently Asked Questions (FAQs)
  - browse through the carousel on the homepage to view all available videos
- To access the Data Archive Web application, use this link, or, go to the Home page for other access options
- To create, or update, a Research Data Management Plan go to ResToolkit
- **Note:** the Data Archive service is also available over SFTP, see the SFTP client guide for more information
